

Proposed Errata Notice; Final Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment and Finding of No Significant Impact

The “Final Southeast Missouri Ozarks Regional Restoration Plan and Environmental Assessment and Finding of No Significant Impact” issued June 26, 2014 (79 FR 43066, July 24, 2014), available electronically at <http://dnr.mo.gov/env/hwp/sfund/nrda.htm> and <http://www.fws.gov/midwest/es/ec/nrda/SEMONRDA/index.html>, needs to be corrected as follows:

Page ii; The Responsible State Agency contact listed for the Missouri Department of Natural Resources should be changed to:

Eric Gramlich
Assessment and Restoration Manager
Missouri Department of Natural Resources,
P.O. Box 176
Jefferson City, MO 65102-0176
573-522-1347
Email: Eric.Gramlich@dnr.mo.gov

Page 49; Table 5. Acceptability Criteria for Compensatory Restoration Project Planning should read as follows:

Criteria	Interpretation
Is compliant and consistent with federal and state laws, policies and regulations.	Project must be legal and protect public health, safety, and the environment.
Has demonstrated technical feasibility. If proposed project is submitted in response to an RFP, it must be within the funding limits identified in the RFP	Projects must be feasible within the proposed budget
Addresses impacted natural resources or services targeted for restoration.	Projects must restore, replace or acquire the equivalent of natural resources impacted by the release of hazardous substances in the SEMO.
Project will not be used for response actions, and will not be used to reduce or eliminate NRDAR liability by a Potentially Responsible Party (PRP).	Project addresses the specific concerns and criteria laid out by the Trustees.

Page 59: Section 9.1 Public Participation the following language should replace the second paragraph:

Public stakeholder meetings will be conducted to fully explain each RFP that is released by the Trustees, and explain each project that a member of the Trustee Council proposes to implement. When the designated time frame for evaluation of proposals submitted in response to an RFP has expired, the Trustees will announce the selection and funding of projects that rank the highest. Project ranking will be based on the Decision Matrix found in Appendix A. Selected restoration projects will undergo further NEPA (among other statutory and regulatory) analysis, including an opportunity for public comment, prior to implementation. The Trustees will continue to select projects until all designated compensatory restoration funds are expended. Funds allocated to primary restoration will be spent as discussed in Section (7).

Appendix B: Evaluation and Selection Process for Compensatory Restoration Projects, Section 1, should read as follows:

1. There are two ways that a compensatory restoration project can be proposed:
 - a. The Trustee Council will publish a notice of a Request for Proposal (RFP) in local newspapers and the Trustee Council websites with at least sixty (60) days for the proposal application process. The Trustee Council will hold at least one public meeting to discuss the particular RFP.
 - b. An agency member of the Trustee Council will submit to the Trustee Council a restoration proposal based on the goals of the Southeast Missouri Ozarks Regional Restoration Plan.
